J&M Sanitation Service Changes

Dear Valued Customer,

These are very trying times with the onset of the pandemic of COVID-19. We at J&M Sanitation want to make sure that we are keeping our employees and the public safe. In an effort to maintain our regular essential services in a safe manner we will be making some changes. Due to the current situation we will be postponing the annual Kuna Clean Up event until further notice. By doing this we can help to maintain our employee's and the public's health and safety. We value the opportunity to provide this free event for our customers and will let you know as soon as we can safely hold this event.

In a recent study by NIH, CDC, UCLA, and Princeton it has been determined that the COVID-19 virus can live on various surfaces for up to three days including garbage cans and trash bags. Because of this we will be implementing the following changes to service. These changes are meant to protect the health and safety of our employees by eliminating their direct exposure to potentially hazardous materials now and in the future.

The following will be Required:

All refuse will need to be in a J&M Sanitation provided 95-gallon cart. The wheeled carts cannot be overloaded, and the lids must lay flat for collection. We will no longer be accepting any items that are placed at the curb outside of our cart. This includes bags, personal cans, boxes, or any other loose refuse. This will be the standard for both our trash and recycling services. Customers will need to make sure all refuse, and yard debris are placed in the trash carts, and only items that are approved for recycling are placed in the recycling carts.

Additional trash and recycling carts can be ordered through the City of Kuna by calling 208-922-5546 or J&M Sanitation at 208-922-3313. Each additional trash cart costs \$2.40 per month and each additional recycling cart is \$2.00 per month.

Additionally, by bagging and tying off your trash before placing it in the cart it will make it easier to keep viruses and bacteria away from our critical service employees, as well as decrease the potential for loose trash to fall out of the cart while being serviced.

We want to thank you for your understanding and cooperation in this effort to protect our employees and community.

Sincerely,
J&M Sanitation Inc.
